

Personal Test Card

Characteristic	Inferior	OK	Superior	Definitions
	[check one in each row]			
Clean carve (drift)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	edge moves cleanly through snow, no grabbing or jerking, holds on ice
Soft edge	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	edge slides laterally over snow, no grabbing or bucking
Accuracy	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	tip tracks with no wobble or lateral drift
Stability	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	absorbs shock/vibration; does not deflect in crud or chop, nor wander at speed
Rebound	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	energy to pop out of turn
Quickness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	ski rolls on edge with little time lag
Lightness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	ski feels neither sluggish nor heavy
Relaxing	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	allows technical mistakes without major reaction, does not demand excessive effort
Builds confidence	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	inspires confidence, encourages experimentation, promotes a sense of skill, allows skier to ski more aggressively, to ski "in the zone."
